Specification:-

1. Model No.: QC-506B1
2. Capacity : 20KN (MAX)
3. Force Resolution : 1/10000
4. Stroke: 1100 mm.
5. Stroke Resolution : 5/1000 mm
6. Speed : 1-1000 mm/min
7. Space : 350 mm
8. Dimension : 72x51x132cm
9. Weight : 115kg
10. Power : 220VAC

Function:-

1. Able proceed tensile, compression, peeling, tearing test.
2. Able display force value and changed sharp value.
3. Has metric and inch system inside and changeable.
4. With a servo motor, this machine could set up testing speed directly.
5. Set up completed to push start button and machine start
Testing proceed automatic.
6. When testing completed, machine return automatic.
7. quick-release adaptor match with various grips.
8. Easy operation by single push button and language option.
9. Able connect with printer directly and output form.
10. Able connect with computer to proceed control, data analysis, etc. (option).
